

COMPANY

SOFTRONIC Sp. z o. o. was founded in 2003 and from the beginning was focusing on the development of knowledge.

The key elements of our offer are:

- a) IT trainings authorized by Microsoft, CompTIA, LPI
- b) server solutions
- c) consulting
- d) software and licensing audits
- e) delivering IT Exams - PEARSON VUE, PROMETRIC, CERTIPORT

In addition:

- a) own courses on all subjects on all levels of knowledge
- b) dedicated courses, prepared in accordance to the specific requirements of our clients.

Today our services are available throughout the country and we are cooperating with clients from wide range of the branches including the public sector.

We are offering IT trainings of various technologies, dedicated to the IT specialists and users of office or graphics applications.

Trainings are leaded by qualified instructors with educational preparation and experience, whose high meritorical and didactical skills are supported by numerous diplomas.
